

CAPABILITIES STATEMENT

ENGINEERING & TECHNICAL SERVICES

INNOVATION. QUALITY. COMMITMENT.

ORGANIZATION BACKGROUND

For over 15 years, MJLM Engineering and Technical Services' (MJLM) has provided Engineering and Sustainment services to the Defense market. Our goal is to provide lifecycle logistics solutions that are innovative, cost-effective, and quality-driven. We specialize in Test, Measurement, and Diagnostic Equipment (TMDE) maintenance and development. TMDE prototypes produced by MJLM are included in the US Army inventory to improve system reliability, maintainability, and readiness.
